

PRE-REPLACEMENT CHECKLIST

World Class Shocks & Struts

- How old & how many miles are on the current shocks & struts?
- How does the vehicle ride and handle pre-replacement?
- Are you going to replace the mounts, bearings or insulators?
- How old or worn are the tires?
- Is the tire size, wheels and tread rating correct?
- Is there measurable wear in any other steering or suspension components?
- Does the motorist know how the vehicle handled when it was new or want something different?
