JOB POSTING

Job Title: Quality Lab Technician

Shift: Monday – Friday, 5:30pm-2:00am with occasional overtime and weekends.

Competitive hourly wage and excellent benefit package.

KYB Americas Corporation, a subsidiary of one of the world's largest manufacturers of shocks, struts and hydraulic components, and a global leader in ride control technology for both OEM and Auto Care (Aftermarket) industries, is growing and we're seeking a Quality Lab Technician to join our team!

If you are interested in a growing, fast-paced, collaborative company with lots of opportunity and a company who understands the importance of work / life balance, KYB Americas Corporation is the place for you!

Purpose of Position/Summary:

The Quality Lab Technician is responsible for confirming that parts meet the quality requirements and standards for KYB Americas Corporation and customers.

Essential Duties/Responsibilities:

- Test parts manufactured on the plant floor to ensure product quality, including all processes;
- Measure parts that are issued to the lab for dimensional verification;
- Complete and understand lab inspection sheets;
- Communicate and assist lab members and engineers with parts and measurements;
- Attend meetings and explain tests if required;
- Verify non-conforming product and contact Lab Supervisor for instructions;
- Other duties as assigned by immediate Supervisor or Manager on an as needed basis.

Job Requirements:

This position requires a high school diploma or GED from an accredited organization. Proficient in common computer skills such as Microsoft Excel, Word, PowerPoint, and Outlook. Ability to use basic hand measuring instruments (e.g. height gauges, calipers and micrometers). Ability to travel domestically and internationally as needed. Working knowledge of GD&T, Geometric Dimensioning and Tolerancing, and certificate for training is preferred. Professional designation through ASQ, American Society for Quality, (Certified Quality Technician) is a plus. Calibration skills and / or training is a plus. CMM background with training is preferred.

ABOUT US:

KYB Corporation produces a variety of ride control, hydraulic, and electronic products for use as original equipment and replacement parts in automobiles, motorcycles, trucks, specialty vehicles, buses, aircraft, railroad cars, industrial applications, agricultural applications, and civil engineering projects. Our global headquarters are located in Tokyo, Japan, and we have facilities in Asia, the United States, Central and South Americas, and Europe.

KYB Americas Corporation, headquartered in Franklin, IN, is a producer of shocks and struts for several Japanese OEM's, such as Toyota, Honda, Nissan, Subaru and Mitsubishi, as well as, producing product for the Aftermarket business.
